You're invited to witness ***A Majestic Matriarchy***. The event is being held during the 19th annual celebration of Orca Action Month and will focus on Indigenous women to comfort, celebrate, and bring attention to our Southern Resident orca relatives. Native peoples have a deep affinity with the matriarchal lifeway of our majestic Resident relatives who rely on the older females for stability, especially in times of crisis. A grave crisis is now upon them and their existence is imperiled.

Join us to listen, to learn, and to be inspired to action by the heartfelt voices and visions of Indigenous women leaders.
